ATM Information Digest

July 2015 edition

ICB Meeting Planner

July	August	September
22 – TSG/40 23 – ISG/61		10 – ICB/57 EU ATM Master Plan IPER Cyber-Security EASA RMT on Conformity Assessment EASA RMT on SPI
October	November	December
5-7 – ATC Global 2015 21/22 – SSC/58 20-23 – Aerodays 2015 TBC – Regulation and Standards workshop		15/16 – SSC/59 TBC – ICB/58
January	February	March
April	May	June

Introduction

The ATM Information Digest provides ICB members with a quick reference on the main developments within SES. The content is organised by dossier, and this edition contains the following updates:

1. **EU Policy** – Description of EU Transport, Aviation and ATM policy
2. **SES 2+** – Status of SES 2+ legislative proposal updated
3. **Funding and Financing**– Updated with results of CEF Call for Proposals / Projects information, and status of EFSI regulation updated
4. **Research Programmes** – Status of European ATM research programmes and funding calls, including SESAR 2020 and Horizon 2020 (*new section*)
5. **SESAR Deployment** – Overview of Deployment Manager activities, and information on first round of implementation projects and EU Master Plan update campaign updated
6. **Performance Scheme** – Latest RP2 developments and information on extension of PRB added
7. **Network Functions** – Summary of NM performance and information on NF IR update added
8. **Centralised Services** – Updated with latest developments
9. **Interoperability** – Summary of issues with existing IOP IRs, and ICB work on Conformity Assessment model and regulatory response to technical challenges
10. **EASA ATM Rulemaking** – Comprehensive overview of EASA ATM-related RMTs updated

In addition, there are a number of supplementary sections:

- **ICB Meeting Planner:** Provides a list of planned ICB events for the next 12 months including key agenda items
- **Useful Resources:** Provides a list of the latest documents, with their corresponding URLs, providing information on Single European Sky (SES) policy and performance. It now also includes links to access dossiers from Comitology Committees and Commission Expert Groups
- **Public Consultations:** Provides a list of on-going and planned public consultations related to air transport
- **On-going Legislative Procedures:** Provides a list of on-going legislation related to Air Transport
- **SES Legislation:** Provides a list of all extant legislation relating to the Single European Sky

Note that an [Industry Event Calendar](#), providing a list of industry events and key meetings, is available on the ICB Portal and is not replicated here.

This document contains a number of hyperlinks. Those in [blue](#) link to public sources, whilst those in [orange](#) link to the ICB Portal. Note that you will need an ICB username and password to log in and access documents on the ICB Portal.

EU Policy

Transport

The European Commission's 2011 White Paper "[Roadmap to a Single European Transport Area – Towards a competitive and resource efficient transport system](#)" set the direction for EU transport policy. In line with the accompanying impact assessment, the Commission is undertaking a mid-term review of the paper to assess the progress made and to determine whether the 2011 analysis and assumptions remain valid.

The 12 week public consultation on the mid-term review of the 2011 White Paper on transport recently closed on 2nd June 2015. The focus of the consultation was to identify key challenges for transport policy, as well as gather suggestions for refocusing the strategy for the forthcoming years. The Commission is to [publish](#) a summary report following analysis of obtained responses.

Aviation

EC Aviation Package

As part of its work programme for 2015, the Commission has announced it will examine ways to improve the conditions of the aviation sector by bolstering its competitiveness. The [aviation package \(number 11\)](#) will include a Communication identifying the challenges and measures for improving the competitiveness of the EU Aviation sectors and major amendment to the EASA Basic Regulation (EC) No 216/2008.

The 12 week public consultation on the aviation package closed on 10th June 2015, with the aim of identifying possible measures to reinforce the competitiveness of the EU aviation sector. A copy of the questionnaire is available on the [ICB Portal](#) for information. The Commission has published the results of the public survey, which can be found [here](#).

ACARE flight path 2050 (long term vision)

The European Commission published its long term vision for Aviation in Europe, [Flightpath 2050](#) in 2011. The report establishes how and where European research priorities should be set to maintain EU growth and worldwide competitiveness, whilst also meeting market needs and environmental challenge.

In response to this new vision, [ACARE](#) updated and produced a new [Strategic Research and Innovation Agenda \(SRIA\)](#) during 2012, alongside the establishment of new research programmes including [Horizon 2020](#) (further details can be found in the [Horizon 2020 section](#)). SRIA provides a guide to the future direction of public and private research, and sets policy principles towards the achievement of Flightpath 2050.

Aerodays 2015

[Aerodays](#), the Commission's flagship event in Aviation research and innovation, takes place once during each EU Research Framework Programme. For Horizon 2020 (FP8 – 2014-2020), the event will be held in [London on 20-23 October 2015](#). The goal is to share achievements of collaborative research and innovation in Aeronautics and Air Transport within Europe.

ATM

SES 2+

The SES 2+ legislative proposal, comprising a recast of the existing SES Regulations (SES Recast) and an amendment to the EASA BR (see also EASA extension below), is currently undergoing ordinary legislative procedure within the European Union. Further details can be found in the [SES 2+ section](#).

EASA extension

As a separate initiative to SES 2+, and in order to identify the most appropriate way to update and improve Regulation (EC) No 216/2008 (EASA Basic Regulation), an EASA Consultation ([A-NPA 2014-12](#)) and a [Commission Consultation](#) were open until the 15th September 2014.

The results of the consultation were published on 16th March 2015 in [EASA Opinion 01/2015](#). The opinion identifies the most appropriate ways to update (EC) No 216/2008, and highlights areas where significant work is required to defragment the existing regulatory framework. The EASA Board has taken the recommendations forward, and the Commission will determine the next steps.

European ATM Master Plan

The European ATM Master Plan is currently being updated and a draft for public consultation was released on 13th July 2015. Further information including the timescale and ICB Actions can be found in the [European ATM Master Plan section](#).

Other Air Transport legislative proposals

Other legislative proposals in progress in the area of air transport which are not covered elsewhere in this document are as follows:

- Common rules for the allocation of slots at EU airports (recast) - [COM\(2011\)0827](#)
- Ground handling services at Union airports and repeal of Council Directive 96/67/EC - [COM\(2011\)0824](#) (7th March 2015: procedure lapsed / withdrawn)
- Proposal for a Directive of the European Parliament and of the Council on aviation security charges - [COM\(2009\)0217](#) (7th March 2015: procedure lapsed / withdrawn)

SES 2+

Overview

There are two fiches relevant to the ICB SES 2+ dossier: the SES Recast and the amendment to the EASA Basic Regulation (EASA BR). The two legislative proposals are currently undergoing ordinary legislative procedures in the European Parliament and the Council of the European Union.

For the European Parliament, the Transport & Tourism (TRAN) Committee is responsible for both legislative processes. The rapporteurs are indicated in Table 1.

Procedure reference	Title	Description	Rapporteur	Status
2013/0186 (COD)	Implementation of the Single European Sky (recast)	Recast of SES and SES II	Marian-Jean MARINESCU (EPP)	Awaiting Council 1st reading position / budgetary conciliation convocation
2013/0187 (COD)	Aerodromes, air traffic management and air navigation services: simplifying and clarifying the legal framework	Amending the EASA BR (EC) No 216/2008	David-Maria SASSOLI (S&D)	Awaiting Council 1st reading position / budgetary conciliation convocation

Table 1: SES recast 2+ legislative proposals

Two 'committees for opinion' have been assigned to the SES recast fiche: the Industry Research and Energy (ITRE) Committee, and the Legal Affairs Committee. The ITRE Committee have decided not to provide an opinion and the Legal Affairs Committee have appointed Francesco Enrico SPERONI as the rapporteur.

On the Council side, there was significant activity under the Italian Presidency in the latter half of 2014. The Commission provided a [progress report](#) on 1st October 2014 in preparation for the [8th October 2014 Transport Council meeting](#). A high level conference with ministers and CEOs took place on the 6th and 7th of November 2014, to further discuss details of the SES2+ proposals. The Commission hopes that an agreement on the regulations may be reached via trialogue, so that they can be adopted by the end of 2015. The Council agreed to the general approach on the SES2+ proposals at the Transport Council meeting on [3rd December 2014](#). The agreed approach is described in a [press release](#) that was published [after the meeting](#).

In a briefing to the TRAN Committee on [21st January 2015](#), the Latvian Presidency confirmed that it would pursue work on the SES 2+ package. Progress of the SES 2+ package has been dependent on resolving the [Gibraltar issue](#), and the Dutch Presidency (January – June 2016) is expected to hold a high level meeting in early 2015 to kick start the adoption process. The Commission has previously stated it aims to adopt the legislative package by the end of 2015.

Timeline

- 11 June 2013** - [SES Recast](#) and [Amendment to the EASA BR](#) legislative proposals adopted by the College of Commissioners
- 29 October 2013** - The TRAN Committee provide [draft report for SES recast](#) legislation
- 4 November 2013** - The TRAN Committee provide [draft report for amendment to the EASA BR](#) legislation
- 27 November 2013** - TRAN Committee propose [amendments to the draft report for SES2+ recast](#) legislation
- 6 December 2013** - TRAN Committee propose [amendments to the draft report for amendment to the EASA BR](#) legislation
- 11 December 2013** - The European Economic and Social (EESC) Committee provide [their opinion on the SES2+ package](#)
- 30 January 2014** - The TRAN Committee vote in favour of both fiches
- 6 February 2014** - The parliamentary committee propose modifications to [SES Recast](#) and [EASA BR](#) for the European Parliament to adopt
- 11 March 2014** - European Parliament discussed the fiches and the proposed amendments of 6th February 2014; the debate is available to watch [here](#)
- 12 March 2014** - European Parliament voted positively, and the following amendments are adopted for [SES Recast](#) and [EASA BR](#)
- 8 October 2014** - Transport Council [discuss the SES2+ fiche](#)
- 3 December 2014** - Council reached a [general approach](#) on the two proposals of the SES II+ package
- 2016** - Text to be adopted under the Dutch presidency

ICB Actions

The ICB adopted its position on the [interoperability implications of SES 2+](#) at ICB/52.

Funding & Financing

Overview

The implementation of the Trans-European Transport Network (TEN-T) was supported through the allocation of TEN-T funds in the period 2007-2013, and through Connecting Europe Facility (CEF) funds for the period 2014-2020. SESAR is recognised in CEF as a 'horizontal project'.

At the start of 2014, the Innovation and Networks Executive Agency ([INEA](#), the successor to TEN-T Executive Agency) became responsible for managing parts of the Connecting Europe Facility (CEF) and Horizon 2020 programme. INEA will also continue to manage the remaining 2007-2013 projects of the TEN-T Programme.

Connecting Europe Facility (CEF)

CEF is an integrated financial instrument for investing in EU infrastructures in relation to Trans European Network projects covering transport, energy and telecommunications. The CEF will act as a common focal point for network-related projects and coordinated funding for the EU financial period (2014-2020). The CEF regulation was [published](#) in the Official Journal on 20th December 2013.

The total budget of the CEF earmarked for transport related projects between 2014 and 2020 is €26.2 bn, of which €11.3 bn will be transferred from the Cohesion Fund. Approximately €3 bn is allocated for SESAR implementation up to 2020. The first Multi-Annual Work Programme ([Commission Implementing Decision C\(2014\)1921](#) and its [annex](#)) was adopted on 26 March 2014. The [first call for SES funding](#) was launched on 11th September 2014; it allocates up to €300 million for SESAR deployment, of which 80% will be directed towards the PCP ATM Functionalities. Commission workshops were held on the 9th and 10th October 2014 to provide further information; the presentations and videos of the event are available [here](#). Details on the first call for proposals may be found under [TEN-T](#) below.

Funding from the CEF is limited to a certain percentage of the overall cost of the project. CEF funding rates of eligible costs are as follows:

- 50% for studies and implementation of infrastructure
- 50% for ground equipment
- 20% for airborne equipment.

According to the [ATM Master Plan](#), the target SESAR deployment package (during the period 2014 to 2024) is expected to cost between €16.2 bn and €23.6 bn.

Project Bonds are one of the financial instruments foreseen under CEF. In effect, Project Bonds are issued by the project with EU/EIB funds used to guarantee the debt. The Project Bond concept started in summer 2012 after positive public consultation, and will be fully integrated into the next Multi-Annual Financial Framework 2014-2020 with the CEF implementation. Project Bonds are not currently particularly suited to financing SESAR deployment.

European Fund for Strategic Investment

On 13th January 2015, the Commission published a [legislative proposal](#) to establish the EFSI, aiming to mobilise funding for projects of at least €315 bn to help promote growth and employment in the period 2015-2017.

To establish the EFSI, public funds (€16 bn from the EU and €5 bn from the EIB) will be used to guarantee private investors. Project bonds will be issued to generate a multiplier effect to reach the desired €315 bn. The EU plans to raise the guarantee by reallocating funds within its financial framework. As a consequence the CEF envelope for grants would be limited, reducing the funds available to ATM by a proposed €0.5 bn.

The legislative proposal is undergoing co-decision procedure. Within the European Parliament, the Economic and Monetary Affairs Committee (ECON), and the Budgets (BUDG) Committee have jointly been assigned responsibility to prepare the European Parliament Report. The Budgets (BUDG) Committee has also been assigned responsibility to prepare the draft amending budget. The rapporteurs are José MANUEL FERNANDES (EPP), Udo BULLMANN (S&D) and Eider RUBIAL GARDIAZABAL (S&D). The TRAN Committee rapporteurs are Dominique RIQUET (ALDE) and Inés AYALA SENDER (S&D).

The [draft report](#) by the ECON/BUDG Committees (including input from ITRE/TRAN Committees) was published on 10th March 2015. The proposed amendments seek to increase the flexibility for funding EFSI, rather than reducing Horizon 2020 and CEF funds, although these were not retained in the final text.

On 24th June 2015, the European Parliament and Council of the European Union adopted the [EFSI Regulation](#). EFSI is expected to be operational by September 2015.

Timeline for EFSI

- 13 January 2015** - [Legislative proposal](#) published
- 10 March 2015** - European Parliament published [draft report](#) on legislative proposal, debate in Council
- 12 March 2015** - TRAN Committee published [draft Opinion on legislative proposal](#)
- 19 March 2015** - TRAN Committee published [proposed Amendments 45-200 on legislative proposal](#)
- 14 April 2015** - TRAN Committee published [Opinion](#) on draft budget
- 15 April 2015** - TRAN Committee adopted amendments and published [Opinion on legislative proposal](#)
- 4 June 2015** - European Parliament published [draft report](#) on draft budget
- 24 June 2015** - Indicative date for EP plenary adoption of report on legislative proposal
- 7th July 2015** - Indicative date for EP plenary adoption of draft amending budget, 1st reading/single reading
- 25th June 2015** - Act [adopted](#) by Council after EP plenary (awaiting signature of act)

TEN-T

2014 Calls for Proposals

The [Call for Proposals](#) for Actions under the 2014 Multi-Annual Work Programme closed on 3rd March 2015. The European Commission has published the [proposed list of projects](#) eligible to receive CEF funding (see Table 2). In total, almost 375 million EUR of CEF funds will be awarded to SESAR projects (representing approximately 750 million EUR worth of projects). Of this total:

- The Deployment Manager will approximately receive 325 million EUR for clusters 1, 2 and 3 plus a coordination package (total value 650 million EUR) to implement elements of the PCP, although it is not yet clear which implementation projects were retained in each of the clusters. The value of public funding is a higher than expected.
- Approximately 50 million EUR will be awarded to projects outside of the scope of the PCP, representing 100 million EUR worth of projects.

The proposed funding decision received a positive opinion by the CEF Committee (composed of Member States representatives) on [10th July 2015](#). Formal adoption by the Commission is

expected by the end of July. INEA will then prepare individual grant agreements to be signed off with project beneficiaries in Q3/Q4 2015.

2015 Calls for Proposals

The [TEN-T days 2015](#) were held in Riga, Latvia on 22-23 June 2015. The event attracted European Member States, CEOs and over 1000 transport stakeholders to discuss the development of the TEN-T network and the challenges in attracting innovative funding solution. Further information can be found in the press release [here](#).

Christophersen-Bodewig-Secchi Report

An [Action Plan](#) "Making the best use of new financial schemes for European transport infrastructure projects" compiled by Former Vice President Christophersen and Coordinators Bodewig and Secchi was prepared in consultation with the EIB identifies and recommends projects along the TEN-T core network corridors which could benefit from financial instruments and schemes within relatively short timeframes. The deployment of SESAR and the Single European Sky has been identified as an example project which is mature enough to be implemented in the first years of the new Commission.

ICB Actions

CEF actions

The ICB considers that a reduction in funds available in ATM will have a negative impact on Europe's ability to deploy SESAR in a synchronised and timely manner across all stakeholder groups. The ICB has therefore prepared the following documents which were approved via the Quick Response Team:

- a [letter](#) to President Juncker voicing the ICB's concerns (see reply [here](#))
- a [position paper](#) on the protection of CEF funds for SESAR deployment

The position paper may be used by ICB Members for individual lobbying activities.

Results of 2014 Call for Proposals

Action number	Title	Beneficiaries	Recommended TEN-T funding €	% funding
2014-BE-TM-0071-M	Implementation of RNP Approaches with Vertical Guidance on the Belgian civil aerodromes outside Brussels TMA	BELGOCONTROL	353,608.50	50%
2014-BE-TM-0189-W	Radio Direction Finder supporting SES performance	European Organisation for the Safety of Air Navigation (EUROCONTROL)	1,187,550.00	50%
2014-BE-TM-0435-W	ASM and AFUA implementation	European Organisation for the Safety of Air Navigation (EUROCONTROL)	3,724,586.00	50%
2014-EU-TM-0032-S	ATM Data 'as a service'	European Organisation for the Safety of Air Navigation (EUROCONTROL)	2,447,294.00	50%
2014-EU-TM-0117-M	SESAR PCP Deployment in support of the coordinated Cluster approach	DFS Deutsche Flugsicherung GmbH	16,528,347.00	50%

Table 2: Proposed results of TEN-T 2014 MAP Call for Proposals

Research Programmes

Overview

On 16th June 2014, the Council of Ministers of the European Union adopted Regulation (EU) No 721/2014 amending Regulation (EC) No [219/2007](#), extending the legal existence of the SJU from 31st December 2016 to 31st December 2024. The amendment also entrusted the SJU with €585 million from the Horizon 2020 Framework Programme (Regulation (EU) 1291/2013) to execute and deliver the SESAR R&I Programme 2020.

SESAR R&I 2020 will result in an overall budget of €1.5 billion (€1.2 billion for applied research and pre-industrial development, and €300 million for large scale demonstrations). €500 million will be provided by the European Union and complementary funding provided by EUROCONTROL and industry. A further €85 million are earmarked for exploratory research activities.

The SESAR 2020 Programme is based on the [ATM Master Plan](#) and is split into three main research phases:

1. Phase 1: Exploratory Research
2. Phase 2: Industrial Research and Validation
3. Phase 3: Very Large Scale Demonstrations (VLDs)

The funding for Phase 1 constitutes €85 million from Horizon 2020, while total funding across Phase 2 and Phase 3 constitutes €1.5 billion (€500 million from H2020, €500 million from both EUROCONTROL and industry members).

Call for SESAR Membership

As part of the extension of the SJU to 2024, a new SESAR Partnership was launched on 9th July 2014 with [call](#) for expression of interest to become a candidate member of the SESAR Research and Innovation Programme 2020.

- 9 July 2014** - Launch of the call for expression of interest to become candidate member of the SJU
- 30 September 2014** - Closing date for the reception of applications
- End October 2014** - Notification to the applicant candidate members, who has passed the eligibility, exclusion and selection criteria and invitation to negotiations
- Nov – Dec 2014** - Negotiations with the selected candidate members on SESAR 2020 content
- Jan – Feb 2015** - Closure of the negotiations and launch of the invitation to submit final proposals
- End April 2015** - Deadline for reception of final proposals
- June 2015** - Expected Decision of the Administrative Board of the SJU on the award of membership and acceptance of final proposals
- 15 July 2015** - Start date of SESAR 2020

The SESAR Membership will be performing SESAR R&I programme activities in the period 2015 – 2024.

SESAR 2020 Exploratory Research

On the 25th March 2015, the SESAR Joint Undertaking (SJU) published the first [Call for Proposals](#) for SESAR 2020 Exploratory Research (ER) projects under the umbrella of the Horizon 2020 Research Framework Programme.

SESAR 2020 ER has an overall budget of €85 million, but under this first call, the €20.6 million is available to co-finance research projects on eleven research topics within two areas: ATM Excellent Science and Outreach, and ATM Applications-Oriented Research.

The closing date for applications was the 25th June 2015.

Horizon 2020

Horizon 2020 (H2020) is the largest EU Research and Innovation programme with almost €80 billion of funding available over seven years (2014 to 2020). It is the financial instrument implementing the [Innovation Union](#), a [Europe 2020](#) flagship initiative aimed at securing Europe's global competitiveness.

H2020 brings together all existing Union research and innovation funding, including the Framework Programme for Research, the innovation related activities of the Competitiveness and Innovation Framework Programme and the European Institute of Innovation and Technology (EIT).

The Horizon 2020 Framework Programme for Research and Innovation (2014 – 2020) was formally adopted by [EC 2013/743](#) on the 11th December 2013 following earlier approval in the EP Plenary on 21st November 2013.

ICB Actions

The ICB currently have no actions relating to European aviation research programmes.

SESAR Deployment

Overview

Pilot Common Project

The Single Sky Committee (SSC) adopted the Commission Implementing Regulation (CIR) ([\(EU\) No 409/2013](#)) on the governance of SESAR Deployment in May 2013. The CIR defines [4 key instruments](#) needed for SESAR deployment within the SES framework: common projects, deployment programme, governance mechanism, and targeted incentives.

Subsequently, the Pilot Common Project (PCP) CIR ([EU No 716/2014](#)) was adopted through a two week written procedure on 28th May 2014. The PCP mandates the implementation of 6 ATM Functionalities (AFs) across specified stakeholders.

SESAR Deployment Manager and Deployment Programme

The Commission has established the policy level of the deployment governance, for which it is directly responsible. Responsibility for the management level of the deployment governance is held by the SESAR Deployment Manager. The [SESAR Deployment Alliance](#) was appointed as the Deployment Manager by the European Commission on [5th December 2014](#) with the signing of the Framework Partnership Agreement.

The Deployment Manager's coordination tasks will be funded through a levy on CEF grants, which are managed by [INEA](#). In a press release the European Commission announced that 3 billion Euros were made available to deliver the Single European Sky via the CEF.

On 10th March 2015, the SJU and the Deployment Manager signed a [Memorandum of Understanding](#), providing a platform for future cooperation for the smooth and timely deployment of the SESAR solutions. On the 30th June 2015, the EDA and the Deployment Manager also signed a [Memorandum of Understanding](#), with the purpose of establishing efficient cooperation and mutual support between civil and military stakeholders with regard to SESAR Deployment.

The Deployment Manager published the [Deployment Programme Version 1 \(draft DPv1\)](#) on 29th June 2015 following a round of consultation in the Stakeholders' Consultation Platform (SCP) (i.e. level 3 consultation). DP v1 develops the first full project view for PCP implementation in a performance drive approach. A draft was delivered to the EC for approval on 30th June 2015 and for level 1 stakeholder consultation. It provides a comprehensive and structured work plan of all activities necessary to implement technologies, procedures and best practices required for common projects.

Implementation Projects: 2014 Call for Proposals for Public Funding

To support the deployment of the first set of Implementation Projects, INEA launched a [Call for Proposals](#) for Actions under the 2014 Multi-Annual Work Programme with an [indicative 80% of 300 mil EUR available](#) for SESAR. The Call closed on 3rd March 2015 – the Deployment Manager submitted three applications in response, containing 110 projects to the value of €836 million (€409 million CEF funds). This was greater than the € 240 million target envelope.

INEA has evaluated the proposals in consultation with the CEF Coordination Committee. A [proposed Selection Decision](#) was published on 29th June 2015 by the Commission. Subject to adoption of this selection decision, the individual financing decisions are expected in September 2015. Overall 325 mil EUR has been indicatively allocated towards PCP SESAR Deployment activities.

Further details on the outcome of the 2014 calls may be found in the [Funding and Financing section](#).

Implementation Projects: 2015 Call for Proposals for Public Funding

The Deployment Manager has requested initial indications of interest for projects for the 2014 Call for Proposals by 11th September 2015.

The Call is expected to be published in Q3 2015

European ATM Master Plan

An [ATM Master Plan revision campaign launch event](#) was held on 16th December 2014. The next edition of the Master Plan will be aligned with the SESAR 2020 programme, and will identify potential ATM functionalities for future Common Projects. A draft for public consultation was made available on 13th July 2015 with the aim of finalising the document in Q4 2015.

Timeline

- 16 December 2014** - European ATM Master Plan update campaign launched
 - 10 July 2015** - SJU deliver proposal to SJU Administrative Board
 - 13 July 2015** - Draft for Public Consultation released
 - 31 December 2015** - SJU Board Members adopt their respective positions, and SJU delivers a revised proposal incorporating the positions
- SJU Administrative Board adopts updated Master Plan

ICB Actions

The ICB will perform a high level review of the European ATM Master Plan, considering whether the document is aligned with the ICB Vision and endorse the updated ATM Master Plan during the consultation period.

The ICB has been requested to provide high level comments on the DPv1 by 18th July 2015.

SES Performance Scheme

Overview

The SES Performance scheme is organised around fixed Reference Periods (RPs) before which legally binding performance targets are set both at EU-wide level and national/FAB level.

EUROCONTROL is currently the European Commission's designated Performance Review Body (PRB) of the Single European Sky, supported by the Performance Review Unit (PRU). Separately, the European Commission appointed Mr Peter Griffiths as PRB Chairman.

Reference Periods

RP1 (2012-2014) reporting

The PRB has published its Annual Monitoring Report for [2012](#) and [2013](#). The 2014 report is expected in Q3 2015.

RP2 (2015-2019) Performance Scheme

The performance scheme ([\(EU\) No 390/2013](#)) and charging scheme ([\(EU\) No 391/2013](#)) Regulations for RP2 (2015 – 2019) were adopted in May 2013. An ad-hoc meeting of the SSC on 4th February 2014 adopted [EU-wide targets for RP2](#).

Member States submitted performance plans including national/FAB targets for RP2 at the end of June 2014. At SSC/55, two decisions on the consistency ([Decision \(EU\) 2015/348](#)) and inconsistency ([Decision \(EU\) 2015/347](#)) of Member States' RP2 performance targets with the Union-wide targets were adopted by the Commission via an advisory procedure.

Table 3: Summary of RP2 performance plans consistency with EU-wide targets

Table 3 summarises these decisions, showing the consistency of each Member States' RP2 targets in each of the Key Performance Areas. Where Member States have proposed inconsistent targets, they must submit revised performance plans within 4 months. The performance plans will then be reassessed by the PRB.

Regarding the compliance of the 2015 unit rates, a Decision on the consistency of the 2015 unit rates with the union-wide targets for 20 Member States was adopted by the Commission after presentation to the Appeals Committee. A Decision on the non-consistent States (Austria, Belgium, France, Germany, Italy, Luxembourg, Netherlands, Slovakia) has been postponed until after revised performance targets are submitted.

Noting that no EU-wide targets on terminal cost-efficiency have yet been set for 2017-2019, a [public stakeholder consultation](#) was launched on the PRB's approach, issues and target options on 19th May 2015. This consultation runs until 21st July 2015 where a public PRB stakeholder workshop on this topic was organised for the 3rd June 2015. Presentations for the workshop are available [here](#).

In addition, the PRB have outlined to the Commission how they intend to [report on the application of the Flexible Use of Airspace \(FUA\) during RP2](#). The PRB proposed to launch a [FUA survey](#) to identify existing arrangements for civil military coordination and cooperation, to provide a base line and, through annual updates, encourage continuous improvement.

Policy options for the modulation of charges in the SES

The European Commission published a [study report](#) exploring various mechanisms for modulating charges to achieve better flight efficiency and reducing flight delays. The study aims to further develop a set of guidelines and recommendations by investigating the current charging framework, and further developing the charging policy underpinning the common charging scheme for ANS in the EU.

Extension of the PRB

SSC/54 approved the EC's request to extend the PRB by 18 months, to the end of 2016 ([Commission Implementing Decision 2014/672/EU](#)).

Discussion at the ad-hoc SSC showed there was no support to maintain the current situation, with EUROCONTROL being designated as PRB beyond 2016. However, there was recognition for the need to keep the expertise of EUROCONTROL's Performance Review Unit available for the PRB. Furthermore, non-EU States could be associated to the PRB in a similar way as done today for the Network Manager. Stakeholders showed a strong preference for developing the PRB as an independent advisory agency. The ICB is currently discussing the potential role of an Independent Performance and Economic Regulator.

In 2015 the SSC will conduct a further consultation in order to have the arrangements for a new body established by 1st Jan 2017.

Timeline

- 4 February 2014** – Positive vote on EU wide-performance targets at ad-hoc SSC
- 14 March 2014** – [Commission Implementing Decision 2014/132/EU](#) setting the EU wide-performance targets adopted
- End of June 2014** – Deadline for submission of Performance Plans by Member States
- 1/2 July 2014** – The SSC approved the proposal from the Commission to extend the PRB by 18 months until the end of 2016 ([Decision 2014/672/EU](#))
- October 2014** – PRB Advice on FAB Performance Plans submitted to Commission
- 24 October 2014** – Ad-hoc SSC discussed the future designation of the PRB post-2016.

- 14/15 January 2015** – SSC discussed and provided positive opinion on Decisions for consistency / inconsistency of RP2 performance targets
- 2 March 2015** – Commission Decisions on [consistency](#) / [inconsistency](#) of RP2 performance targets published
- 19 May 2015** – Public stakeholder consultation on proposal for union-wide targets for terminal cost-efficiency
- 3 June 2015** – Stakeholder [workshop](#) on union-wide targets for terminal cost-efficiency
- 2 July 2015** – Member States to submit revised RP2 Performance Plans
- 21 July 2015** – Closing of public consultation on proposal for union-wide targets for terminal cost-efficiency

ICB Actions

The ICB will consider advice on the future of the SES Performance Scheme at a later date. The ICB are developing a position paper on the potential role of an Independent Performance and Economic Regulator.

Network Functions

Overview

The Network Function Implementing Regulation (NF IR) ([EU No 677/2011](#)) was adopted on 7th July 2011. The Commission is currently in the process of updating the regulation using a 2-step approach. The first step was completed in September 2014 addressing urgent issues.

[Commission Decision C\(2011\)4130](#) designated EUROCONTROL as the Network Manager until 31st December 2019 (ie the end of RP2). A summary of recent network performance is provided below.

Summary of Network Performance

A full overview of progress and issues related to the Network Functions can be found in the [SSC/57 paper](#).

The Network Performance up to this point during 2015 is summarised below:

- With regard to the review and performance of RP1, there was insufficient capacity in 12 out of 64 ATCs. In view of achieving RP2 targets, this issue needs to be carefully approached.
- The traffic forecast for 2015 has been revised downwards to 1.5% due to the deterioration of the economic outlook in Nordic countries and Russia.
- The industrial action in France on 8th – 9th April 2015 has already had a significant impact on meeting the delay target of 0.5 min/flt. 440,000 minutes of delay was recorded during this time which represents 10% of the delay budget for 2015. As a result, achieving the SES target will be almost impossible and the most recent analysis estimates delay at 0.54 min/flt by the end of 2015.

Future prospects for RP2 are also summarized below:

- Delay targets (0.5 min/flt) will not be met in any of the years in the second reference period due to higher traffic in bottleneck areas, degraded good performance plans and FABs not delivering additional capacity over and above individual ANSPs.
- In particular, DSNA noted a significant deterioration of the originally planned performance which has contributed to the revised delay forecast.
- The achievement of network capacity targets will also require the deployment of new technology as quickly as possible during RP2. As a result, the NM is working closely with the DM to ensure network priorities and requirements are given the necessary focus and funding support to deliver benefits as soon as practicable.
- The arrangements between the NM and DM are being established on the basis of the relevant provisions included in the Commission implementing regulations (EU) [No 677/2011](#) (NM functions amended by (EU) [No 970/2014](#)), [No 409/2013](#) (DM) and [No 716/2014](#) (PCP).

Update of Network Functions IR

The amendment to the Network Functions IR ([EU No 970/2014](#)) was approved and published in September 2014. In accordance with the two-step approach to updating the NF IR, the ICB will prepare a position in Q4/2015.

The two-step approach applied defined below;

1. A targeted audit of the financing of the NM to clarify the cost base and get best performance of the NM. This is expected to start in November and finish mid to end of

2016. The audit will serve as the basis for the identification of future requirements of the NM and future nomination of the NM.

2. The nomination of the next NM by the end of 2016. This could either be the re-nomination of EUROCONTROL, with a number of requirements for changes, or nomination of another entity, such as a consortium of operational stakeholders.

ICB Actions

The ICB will provide a position on the second step revision of the NF IR.

Centralised Services

Overview

EUROCONTROL has defined a [Centralised Service](#) (CS) as “an ANS service or ATM function exercised at pan-European and central network level for harmonisation and cost-efficiency purposes”. V2.0 of EUROCONTROL’s [proposal](#) to the European Commission was published on 25th March 2013. Table 4 provides an overview of the 18 Centralised Services. EUROCONTROL held several workshops on the initiative. Speeches by Frank Brenner of interest to the ICB can be found [here](#), and [here](#).

In accordance with Directive 14/83 of the EUROCONTROL Permanent Commission (3rd February 2014), Calls for Tenders for CSs 1, 4, 5, 6, and 7 are being released in a staggered manner (refer to the timeline below) while CSs 2, 3, 8 and 9, where the maturity is not as well established, will initially proceed with feasibility studies. CS 3, 6-4, 7-2, 8, 9-1 and 9-2 are [co-financed by the European Union through the 2013 TEN-T multi-annual work programme](#).

There was significant interest in the CfI, and to date EUROCONTROL has released 8 CfTs, with 6 more planned by the end of 2015.

There will be several key decision points where the CBAs will be updated, according to the nature of each CS. For this phase, governance will be the EUROCONTROL decision bodies.

Timeline

- 3 February 2014** – [Member States approve centralised services](#)
- 4 February 2014** – CS Programme kicked-off in Agency
 - 4 March 2014** – [Workshop on Centralised Services](#) held at World ATM Conference
- 21 March 2014** – [‘Calls for interests’ open for the following 14 Centralised Services](#): CS1, 4, 5, 6-1 to 6-7 inclusive, 7-1 to 7-3 inclusive, and 8. ‘Calls for interests’ process closed on 8 August 2014.
- 26 May 2014** – Publish CfTs for the CS9-1 and 9-2 Feasibility Studies
- 18 November 2014** – [CS 7-2 Cft](#) published (closed on 16 June 2015)
- 23 January 2015** – [CS 6-2 Cft](#) published (closing date 31 August 2015)
- 29 January 2015** – [CS 7-3 Cft](#) published (closing date 03 September 2015)
- 11 February 2015** – [CS 6-3 Cft](#) published (closing date 17 July 2015)
- 16 February 2015** – European Commission announces TEN-T funding for feasibility studies for CS 3, 8, 9-1 and 9-2, and for Demonstrators 6-4 and 7-2.
- 11 March 2015** – [Workshop](#) on Centralised Services held at World ATM Conference
 - 19 May 2015** – New [CS 4 Cft](#) published (closing date 11 August 2015)
 - 21 May 2015** – New [CS 1 Cft](#) published (closed on 02 July 2015)
 - 21 May 2015** – Directive 15/88 of the EUROCONTROL Permanent Commission authorising the Director General of the Agency to conclude, on behalf of the Organisation, a common procurement agreement

(CPA) for the common procurement of the New Pan-European Network Services (NewPENS) with the Air Navigation Service Providers and other Parties interested to use the NewPENS from the EUROCONTROL Member States and other States within the ICAO EUR/NAT Region and bordering States.

- 03 June 2015** – Joint EUROCONTROL/A6 Alliance Stakeholders Consultation [Workshop](#) on Common Procurement Agreement (CPA) for [NewPENS](#)
- 05 June 2015** – CS 7-1 CFT published (closing date 06 November 2015)
- 09 June 2015** – CS 6-4 CFT published (closing date 29 September 2015)
- 18 June 2015** – CS 9-1 and 9-2 Feasibility Studies results – [Consultation Workshop](#)
- 24 June 2015** – [CS 4 Workshop](#), *Time for the next level: Centralised AFUA Service*
- 15 July 2015** – Deadline for receiving feedback from all ATM stakeholders on the draft CPA for the creation of NewPENS as well as the first indication of stakeholders intending to join the CPA at this stage
- 08 September 2015** – Publish CFT for CS 6-7
- 15 September 2015** – Target date for the NewPENS CPA to come into force
- October 2015** – Publish CFTs for 6-5 and 6-6
- December 2015** – Publish CFTs for CS 5 and CS 8/NewPENS. Study
- December 2016** – First contract for a CS Demonstrator to be awarded.
- 2016** – Publish CFTs for remaining CSs (CS 3, CS 9-1, 9-2) (conditional to Provisional Council agreement on outcome feasibility studies) and CFT for the CS2 Feasibility Study

ICB actions

The ICB finalised its [CS Position Paper](#) by correspondence and delivered it to the Commission on 15th January 2014.

The ICB will continue to monitor the situation on Centralised Services.

Centralised Service	Status
CS1: Flight Plan and Airport Slot Consistency Service (FAS) <i>Checking consistency of flight plans against airport slots</i>	CFT published
CS2: 4D Trajectory Flight Profile Calculation for Planning Purposes Service (4DPP) <i>Central reference 4D trajectory profile in the pre-planning phase</i>	Subject to feasibility study (external)
CS3: European Tracker Service (ETKR) <i>Providing an ECAC-wide surveillance picture</i>	Subject to feasibility study (internal)
CS4: Advanced Flexible Use of Airspace Support Service (AFUAS) <i>Civil-military airspace management decision making processes</i>	CFT published
CS5: European ATM Information Management Services (EAIMS) <i>A reference source of consolidated European ATM context information</i>	CFT expected
CS6: Common Network Resources (CNR) Managing scarce resources on a unified basis	
CS6-1: Transponder Code Function (CNR/TCF) <i>Improving the management of the Transponder Code Function</i>	CFT expected
CS6-2: Mode S Interrogator Code Allocation (CNR/MICA) <i>Coordinating the allocation of interrogator codes to Mode S interrogation</i>	CFT published
CS6-3: Radio Frequency Function (CNR/RFF) <i>The SAFIRE and Monitoring services providing all CNS systems with frequencies that are not interfered</i>	CFT published
CS6-4: European Messaging Directory Service (CNR/EMDS) <i>Providing coherent routing tables for the ATM messaging</i>	CFT published
CS6-5: European IPS Repository (CNR/EIPR) <i>Providing a unique repository of all network addresses</i>	CFT expected
CS6-6: Security Certificate Service (CNR/SCS) <i>Delivering security keys to get access to the EUR ATM network</i>	CFT expected
CS6-7: Operation and Coordination of Network Security (CNR/OCNS) <i>Monitoring and managing security of the ATM network</i>	CFT expected
CS7: Network Infrastructure Performance monitoring and analysis Service (NIPS) Safe function and anomaly resolution of CNS infrastructure	
CS7-1: Performance monitoring of Data-link communication, Surveillance avionics, TCAS and RVSM (NIPS/CNS-PERF) <i>Insuring that CNS aircraft and ground systems are interoperable and that the right level of performance is achieved</i>	CFT published
CS7-2: Performance of 1030/1090 RF bands (NIPS/SUR-RF) <i>Providing a consistent and updated view of the 1030/1090 RF band usage</i>	CFT published
CS7-3: Monitoring and prediction of Satellite Navigation (NIPS/SAT-NAV) <i>Centrally operating reliable predictions of the GPS RAIM</i>	CFT published
NewPENS <i>Ground communication needs for future data exchange</i>	Draft CPA in progress
CS9: Data Communication Service (DCS) <i>Air-ground communication service to support consolidation of DLS</i>	Publication of EUROCONTROL Feasibility Study following consultation 7th August 2015
CS9-1: Telecommunication Infrastructure (DCS/TELE-INFRA) <i>Transporting A/G ATS datalink information between mobile and ground users</i>	
CS9-2: CPDLC, CM, ADS-C SERVER (DCS/CCA-SERVER) <i>Reducing the number of servers in the European States and the associated operating costs</i>	

Table 4: EUROCONTROL Centralised Services

Interoperability

Overview

Interoperability issues relating to the development and deployment of technologies, including standardisation and technical regulation activities undertaken in relation to SES and SESAR, are dealt with by the Technical Sub-Group (formerly known as the Interoperability Sub-Group).

Implementing Rules

Issues with existing rules

The Commission is currently working to resolve a number of issues with existing rules, as outlined in Table 5.

Implementing rule	Status
Aeronautical Data Quality (ADQ) 1	The ADQ IR was amended in September 2014 by Regulation (EU) No 1029/2014 . The Commission is also planning to launch EU Pilots due to Member States stating they are unable to comply. Outputs of the 23 rd June workshop are available here and the outputs of the ADQ Regulators Working Group are available here .
Surveillance Performance and Interoperability (SPI) IR	Step 1 of the Commission's 2 step approach for revision of the SPI IR was completed in September 2014 with the publication of Regulation (EU) No 1028/2014 pushing back the deadlines for forward fit and retro fit (to 8th June 2016 and 7th June 2020 respectively). Step 2 will comprise more significant changes, following a detailed review for the scope and impact. The SJU published its preliminary options paper for the evolution of the SPI IR in January 2015, setting out 6 potential regulatory options which fed into a stakeholder workshop on 21 st April 2015. The workshop concluded that the benefits of any option for evolution need careful impact assessment, and it is likely the Commission will request EASA to launch a rulemaking task to revise the mandate.
VCS IR	The Commission held a Workshop on VCS 2 IR on the 27th January 2015 to assess the current implementation of the regulation, identify existing issues or areas of concern and to discuss the potential evolutions of the regulation. The workshop concluded that there had been generally good progress, although General Aviation stakeholders voiced concerns about cost burden. It was also noted that the bulk of work was scheduled for 2018, and therefore a robust approach to deployment management was required – the NM Radio Frequency Function could be well suited to this. The workshop report is available here .

Table 5: Summary of issues with IOP IRs

Data Link Services IR

The SSC provided a positive opinion on the draft Implementing Regulation amending (EC) 29/2009. Regulation (EU) 2015/310 was published on 26th February 2015.

The ground implementation deadline is now 5th February 2018, whilst the airborne implementation deadline is 5th February 2020.

As noted in the [SSC/57 paper](#), the ELSA consortium has been selected by the SJU to undertake the "VDL2 measurement, analysis and simulation campaign". This programme consists of three work areas and, upon completion (June 2016), will support the Commission to launch Step 2 of the two-step regulatory approach.

In the meantime, the SESAR Deployment Manager has been tasked to collect information from stakeholders on deployment plans and status, and to develop a DLS deployment plan for integration into the Deployment Programme on the basis of the results of the SJU study.

Conformity Assessment

Under SES 2+, the process of demonstrating compliance with the Essential Requirements of the interoperability Regulation is to be moved from the SES legislation to the EASA Basic Regulation. Whereas this process (Conformity Assessment) has been supported by EUROCONTROL to date, in future EASA will take the lead.

The TSG held a dedicated [workshop](#) on 10th February 2015 to create a debate on the future of Conformity Assessment, and to identify means to improve the process as part of the transition. As a result, an [ICB Position on the future of Conformity Assessment](#) is under development.

ICB Actions

The TSG has developed a position on the [ADQ IR](#) following the June 2014 workshops. The TSG will comment on further amendments following the ADQ workshop.

The ICB has produced a [position on the revision of the DLS IR](#), and a [position on the update to the SPI IR](#). A further [position on step 2 of the revision of the SPI IR](#) is under development by the TSG and is expected to be presented as the next ICB meeting for approval on the 10th of September 2015.

The TSG has developed a [draft position on the future of Conformity Assessment](#) is expected to be presented as the next ICB meeting for approval on the 10th of September 2015.

The TSG has also developed a [draft position on the regulatory response to Cyber-Security](#).

EASA Rulemaking

Overview

This section summarises the status of the EASA Rulemaking activities on ATM.

The [EASA 4-year Rulemaking Programme 2014-2017](#) provides the expected rulemaking over a period of 4 years and was officially adopted by [ED Decision 2013/029/R](#) on 20th December 2013, which supersedes earlier published rulemaking programmes.

The Programme also contains rulemaking projects deemed necessary to support the implementation of the regulatory needs stemming from SESAR deployment. To support this, a reassessment of the Programme is in progress to identify the necessary regulatory actions arising from Regulation (EC) 716/2014 (PCP CIR).

The on-going rulemaking activities in the ATM/ANS domain have progressed in line with the priorities set by EASA Management Board and the European Commission.

On 16th March 2015, EASA published its proposals for the future of the aviation regulatory system, including a possible revision of (EU) No 216/2008. Further information can be found in the [EU Policy section](#).

ATM / ANS rulemaking deliverables

An overview of the latest progress of EASA's ATM / ANS rulemaking activities is provided below (links to Terms of References for the RMTs are provided where available; further details are available on the [ICB Portal](#)):

- **ATCO licensing (RMT.0153, RMT.0154):** New ATCO licensing Regulation (EU) No [2015/340](#) will become applicable 30 June 2015. The corresponding AMC/GM has also been published ([Decision 2015/010/R](#))
- **SERA (RMT.0609, RMT.0610):** EASA issued Opinion [04/2014](#) on 16th December 2014 including a draft Commission Regulation amending Regulation [\(EU\) No 923/2012](#), and is continuing to prepare the draft Regulation for comitology in the SSC which will be presented for vote in SSC/57. The NPA on the associated AMC/GM is expected to be published for consultation in Q3/Q4 2015.
- **Requirements for service providers and the oversight thereof (RMT.0148, RMT.0149):** Opinion [03/2014](#) was published on 16th December 2014 including draft Regulations replacing 1034/2011 and 1035/2011 along with draft AMC and GM. The draft Regulation is currently undergoing comitology procedure which is expected to be adopted in Q4 2015.
- **Part-DAT (ToR [RMT.0593/RMT.0594](#)):** This activity includes the former ADQ-2 mandate. Opinion [02/2015](#) was published on 16th March 2015, including a draft Regulation amending (EU) No 965/2012. The Opinion has been subject to public consultation ([NPA 2014-20](#)). A Decision containing amendments to the related AMC/GM is anticipated to be published in Q4 /2015 following alignment of the amendments with the IRs and adoption of the proposal by the Commission.
- **PBN IR (ToR [RMT.0639](#)):** [NPA 2015-01](#) published on 19th January 2015. A workshop on implementing PBN in the European ATM Network was held on [9th March 2015](#), with the purpose of presenting and discussing the requirements for PBN implementation. The intent is to include provisions for TCAS/ACAS. [Opinion 03/2015](#) including draft Regulations was published on 31st March 2015. A Decision containing related CS/AMC/GM is anticipated to be published in Q2 2016 following adoption of related IRs by the Commission.
- **Technical Requirements for Remote Tower Operations (ToR [RMT.0624](#)):** [NPA 2015-04](#) was published on 23rd March 2015 and was open to consultation till 4th May

2015. A decision paper along with a Comment-Response Document is expected to be published in summer 2015.

Other rulemaking activities in progress include:

- **Technical requirements and operational procedures for Aeronautical Information Services (AIS) and Aeronautical Information Management (AIM) (ToR RMT.0477/RMT.0478)**: NPA expected in second half of 2015.
- **Requirements for ATS (RMT.0468, ToR RMT.0464)**: NPA expected in Q4 2015
- **Technical requirements and operation procedures for airspace design (ASD) including procedure design (ToR RMT.0445, RMT.0446)**: NPA expected in second half of 2015
- EASA is also supporting revisions of the SPI and DLS, as necessary. Work on a revised regulatory response is expected to start in 2015.
- ED [Decision 2014/035/R](#) and [CRD](#) to [NPA 2014-8](#) proposing AMC/GM on the newly introduced safety performance indicators for RP2 were published on 16th December 2014.

ICB Actions

The ICB TSG Sub-Group receives a regular report on the [status of ATM activities undertaken by EASA](#), and has an action to monitor EASA activities with an ATM impact.

Comitology Committees

Single Sky Committee (SSC)

To access SSC dossiers (agendas and summary minutes) follow [this link](#) and these instructions:

1. In the top box select 'Search for Dossiers'
2. In the bottom box ('Committee/Basic legal act') select 'Committee'
3. Under service responsible, select 'Mobility and Transport' and press 'Search'
4. Scroll down and select the Single Sky Committee
5. (Optional - specify any further details in the 'Dossier' box)
6. Click the 'Search' button

SSC working papers are made available to ICB members via the ICB Portal.

Commission Expert Groups

European Observatory on Airport Capacity & Quality

Documents from the group are available in the additional information tab.

Objective: to advise the Commission on the implementation of the action plan for airport capacity, efficiency and safety in Europe and on any matter relating to airport policy, notably airport capacity.

Expert Group on Social Dialogue

Agendas and summary minutes are available in the additional information tab.

Objective: to advise the Commission with respect to the implementation and development of the single European sky regarding all measures having significant social implications.

SESAR Interim Deployment Steering (IDSG)

Documents from the group are available in the additional information tab.

Objective: to steer, coordinate and monitor short term implementation activities on the basis of an Interim Deployment Programme. The steering is primarily achieved through recommendations to the Commission and the oversight of their implementation. The Commission may consult the IDSG on any matter relating to SESAR deployment.

The Deployment Manager has taken over the IDSG's activities since the selection of the SESAR Deployment Alliance.

Public Consultations

This section provides links to public consultations of interest to the ICB.

1. European Commission	
Aviation package for improving the competitiveness of the EU Aviation sector	Consultation period: 19/03/2015 – 10/06/2015. See results here
Mid-term review of the 2011 White Paper on transport	Consultation period: 10/03/2015 – 02/06/2015
2. Performance Review Body	
No open consultations	
3. European Aviation Safety Agency (ATM relevance only)	
Notices of Proposed Amendments	
Technical and operational requirements for remote tower operations (NPA 2015-04 (23/03/2015))	Comments closed 04/05/2015
Performance Based Navigation implementation in the EATMN (NPA 2015-01 (19/01/2015))	Comments closed 20/04/2015
4. EUROCAE	
ED-203: Airworthiness Security Methods and Considerations	Comments closed 15/04/2015

On-going Legislation

Single Sky Committee

1. Recently approved Commission Implementing Regulations and Decisions	
SPI CIR Commission implementing regulation (EU) No 1028/2014 (Amending IR (EU) No 1207/2011)	Amendment adopted through written procedure 30 th September 2014
Extension of designation of the PRB Commission Implementing Decision 2014/672/EU	Received positive opinion at SSC/54
ADQ IR Commission Implementing Regulation (EU) No 1029/2014 (Amending Regulation (EU) No 73/2010)	Amendment adopted through written procedure 30 th September 2014
Network Function IR Commission Implementing Regulation (EU) No 970/2014 (Amending Regulation (EU) No 677/2011)	Amendment adopted through written procedure on 13 th September 2014
ATCO Licencing Rule Commission Implementing Regulation (EU) No 2015/340 (Amending CIR (EU) No 923/2012 and repealing CR (EU) No 805/2011)	Adopted through written procedure on 6 th March 2015
DLS IR Commission Implementing Regulation (EU) No 2015/310 (Amending Regulation (EC) No 29/2009 and repealing Regulation (EU) no 441/2014)	Amendment adopted through written procedure on 27 th February 2015
2. Proposals awaiting decision	
SERA Part C (Amending CIR 923/2012)	EASA opinion published and presented to SSC/55, SSC 56 and a dedicated workshop for discussion. Draft implementing rule and its annex under coordination with EASA Committee, with vote expected in October 2015.
Common Requirements and Safety Oversight (Amending Regulation (EU) No 1034/2011 and Regulation (EU) No 1035/2011)	EASA opinion published and presented to SSC/55, SSC 56 and a dedicated workshop for discussion. Revised text of two legislations distributed to SSC, comments discussed at SSC/56 and SS/57. Vote scheduled at SSC/58.
3. Expected Proposals	
PBN IR Part-DAT	Further information in EASA Rule Making section

European Parliament Procedures

Proposals awaiting first reading by EP		
Proposals adopted by EP in first reading and awaiting Council position		
Implementation of Single European Sky (Recast)	COM(2013)0410 2013/0186(COD)	Debate in Council on 03/12/2014
Aerodromes, air traffic management and air navigation services: simplifying and clarifying the legal framework	COM(2013)0409 2013/0187(COD)	Text adopted by Parliament on 12/03/2014
Ground handling services at Union airports and repeal of Council Directive 96/67/EC	COM(2011)0824 2011/0397(COD)	Proposal withdrawn by Commission on 07/03/2015
Common rules for the allocation of slots at EU airports (recast)	COM(2011)0827 2011/0391(COD)	Text adopted by Parliament on 12/12/2012
Proposal for a Directive of the European Parliament and of the council on aviation security charges	COM(2009)0217 2009/0063(COD)	Proposal withdrawn by Commission 07/03/2015
Recently adopted acts		
Extension of SESAR Joint Undertaking	COM(2013)0503 2013/0237(NLE)	Final act signed on 16/06/2014, final act published in Official Journal on 01/07/2014
Civil aviation; reporting analysis and follow up of occurrences	COM(2012)0776 2012/0361(COD)	Final act signed on 03/04/2014, final act published in Official Journal on 24/04/2014
European Fund for Strategic Investments (EFSI)	COM(2015)10 2015/0009(COD)	Final act awaiting signature, final act published in Official Journal on 01/07/2015
Parliament Own Initiative reports		
Safe use of remotely piloted aircraft systems (RPAS) in the field of civil aviation	2014/2243(INI)	Awaiting committee decision
Implementation of the 2011 White Paper on Transport	2015/2005(INI)	Awaiting committee decision
