ATM Information Digest

August 2014 Edition

ICB Meeting Planner

July	August	September
<p>1/2 – SSC/54 Positive opinion on SPI CIR Positive opinion on ADQ CIR Positive opinion 18 month extension of PRB</p> <p>8 - Regulatory and Institutional Vision Workshop ICB SES Vision developed further</p> <p>22 – TSG Drafting Group ICB response to DLS IR considered</p> <p>22 – ISG/57 SES Vision Revised</p>		<p>4 – ICB/53 Discussion and adoption of the ICB vision for the Single European Sky</p> <p>29 – ISG/58</p> <p>30 – Commission workshop on DLS</p>
October	November	December
<p>1 – TSG/36 Develop position on DLS IR Revision</p>	<p>12/13 – SSC/55 Provide opinion on common charging scheme for ANS CIR</p>	<p>12 – ICB/54</p>

Introduction

The ATM Information Digest provides ICB members with a quick reference on the main developments within SES. The content is organised by dossier, and the revised July 2014 edition contains the following updates:

1. **SES2+** – updated to reflect Italian Presidency actions
2. **SESAR Deployment** – Call for the Deployment Manager added
3. **SESAR Joint Undertaking Extension** – no major updates
4. **Funding and Financing** – no major updates
5. **Performance Scheme** – information on extension of PRB added
6. **Network Manager** – update on NF IR
7. **Centralised Services** – no major updates
8. **Interoperability** – details from SSC/54 and DLS IR revision.
9. **EASA ATM Rulemaking** – update from SSC/54 added

In addition, there are a number of supplementary sections:

- **ICB Meeting Planner:** Provides a list of planned ICB events for the next 12 months including key agenda items.
- **Useful Resources:** Provides a list and up to date URL of the latest documents providing information on SES policy and performance. It now also includes links to access dossiers from Comitology Committees and Commission Expert Groups.
- **Public Consultations:** Provides a list of on-going and planned public consultations related to air transport.
- **On-going Legislative Procedures:** Provides a list of on-going legislation related to Air Transport.
- **SES Legislation:** Provides a list of all extant legislation relating to the Single European Sky.

Note that an [Industry Event Calendar](#), providing a list of industry events and key meetings, is presented on the ICB Portal and is not replicated here.

This document contains a number of hyperlinks. Those in [blue](#) link to public sources, whilst those in [orange](#) link to the ICB Portal. Note that you will need to log in with your username and password to access documents on the ICB Portal.

SES2+

Overview

There are two fiches relevant to the ICB SES2+ dossier: the SES Recast and amendment to the EASA Basic Regulation (EASA BR). The two legislative proposals are currently undergoing ordinary legislative procedure in the European Parliament and the Council of the European Union.

Commissioner Kallas made a [speech](#) outlining the need for SES 2+ in an informal meeting of EU transport ministers on 16th September 2013. This meeting was not supportive of the package.

For the European Parliament, the TRAN Committee is responsible for both legislative processes. The rapporteurs are indicated in the table below.

Procedure reference	Title	Description	Rapporteur	Status
2013/0186 (COD)	Implementation of the Single European Sky (recast)	Recast of SES and SES II	Marian-Jean MARINESCU (EPP)	Awaiting Council 1st reading position
2013/0187 (COD)	Aerodromes, air traffic management and air navigation services: simplifying and clarifying the legal framework	Amending the EASA Basic Regulation (EC) No 216/2008	David-Maria SASSOLI (S&D)	Awaiting Council 1st reading position

Two 'committees for opinion' have been assigned to the SES recast fiche, the Industry Research and Energy (ITRE) Committee and the Legal Affairs Committee. The ITRE Committee have decided not to provide an opinion and the Legal Affairs Committee have appointed Francesco Enrico SPERONI as the rapporteur. The Council of the European Union is expected to discuss the two legislative proposals in the second half of 2014.

On the Council side, there was significant activity in July under the Italian Presidency. Further activity is expected in September 2014 for SES 2+ and in October 2014 for EASA BR. A general agreement is expected by December 2014.

Timeline

- 11 June 2013** - [SES Recast](#) and [Amendment to the EASA BR](#) legislative proposals adopted by the College of Commissioners
- 29 October 2013** - The TRAN Committee provide [draft report for SES recast](#) legislation
- 4 November 2013** - The TRAN Committee provide [draft report for amendment to the EASA BR](#) legislation
- 27 November 2013** - TRAN Committee propose [amendments to the draft report for SES2+ recast](#) legislation
- 6 December 2013** - TRAN Committee propose [amendments to the draft report for amendment to the EASA BR](#) legislation
- 11 December 2013** - The European Economic and Social (EESC) Committee provide [their opinion on the SES2+ package](#)
- 30 January 2014** - The TRAN Committee vote in favour of both fiches
- 6 February 2014** - The parliamentary committee propose modifications to [SES Recast](#) and [EASA BR](#) for the European Parliament to adopt
- 11 March 2014** - European Parliament discussed the fiches and the proposed amendments of 6th February 2014, the debate is available to watch [here](#)
- 12 March 2014** - European Parliament voted positively, and the following amendments are adopted for [SES Recast](#) and [EASA BR](#)
- Q3/Q4 2014** - The Italian Presidency is discussing the two legislative proposals

ICB Actions

The Commission has been asked to brief the ICB at the September plenary.

The ICB adopted its position on the [interoperability implications of SES2+](#) at ICB/52.

SESAR Deployment

Overview

The SSC adopted the Commission Implementing Regulation (CIR) ([\(EU\) No 409/2013](#)) on the governance of SESAR Deployment in May 2013. The CIR defines [4 key instruments](#) needed for SESAR deployment within the SES framework: common projects, deployment programme, governance mechanism, and targeted incentives.

The Commission has established the Policy level of the deployment governance, for which it is directly responsible. Under this role, the first tasks for the Commission are to develop the first common project, the Pilot Common Project (PCP), and to setup the Deployment Manager. To date the PCP CIR has been published in the [Official Journal](#) the [Call for the Deployment Manager](#) is in progress.

Pilot Common Project

The PCP CIR was adopted through a two week written procedure on 28th May 2014, it is now available in the [Official Journal](#). The PCP makes mandatory the following ATM Functionalities (AFs):

AFs in the PCP

AF1: Extended AMAN and PBN in high density TMAs

AF2: Airport Integration and Throughput

AF3: Flexible Airspace Management and Free Route

AF4: Network Collaborative Management

AF5: iSWIM: ground-ground integration towards i4D with enhanced Flight Data Processing performances

AF6: Initial Trajectory Information Sharing: air-ground integration towards i4D with enhanced Flight Data Processing performances

Deployment Manager

The Commission provided an [explanatory document](#) on the use of a Framework Partnership to establish the Deployment Manager, as well as a [Draft Model Specific Agreement](#) and a [Draft Model Framework Partnership Agreement](#).

The Commission launched a [call for the expression of interest in the Management and Implementation levels of SESAR Deployment](#) on the 14th February 2014 which closed on 17th March 2014. On 4th April 2014, DG MOVE organised an information workshop for [those who expressed interest](#) in the call and the following [explanatory document](#) was made available. On 30th June 2014 the "Call for the Deployment Manager" was [launched](#), deadline for the call is 15th of October 2014. The specific objectives of the call are to; select the partners of the SESAR deployment Framework Partnership, designate the deployment manager, award a specific grant to the Deployment Manager and to define the deployment programme.

The Deployment Manager's coordination tasks will be funded through a levy on CEF grants

Timeline

- 14 Feb to 17 Mar 2014** - Call for the expression of interest for the deployment manager for both managerial and implementation levels
- 4 April 2014** - Deployment Manager Workshop
- 30 June 2014** - Calls for proposals for the Deployment Manager [launched](#)
- September 2014** - Call for first implementation projects
- 15 October 2014** - Deadline for Calls for proposal of the Deployment Manager
- 30 October 2014** - Selection of the Deployment Manager
- November 2014** - Information to applications and Signature of FPA
- December 2014** - Starting date for programme support action for the tasks of the Deployment Manager

ICB Actions

The ICB provided its [position on the PCP](#) to the Commission on 13th March 2014. The ICB will consider the need for further actions at ICB/53.

SESAR Joint Undertaking

Overview

With the adoption of the SJU extension until 2024, the SJU has launched a [“call for expressions of interest to become candidate member of the SJU”](#). The call is aimed at those who wish to confirm their interest in SESAR 2020, and to any new entity who intends to become a member of the SJU, and who fulfil the criteria established in the SJU Regulation and Horizon 2020, further detailed in the call documentation, for the activities to be carried out under the European Union’s 2014-2020 financial framework. The call closes on 30 September 2014.

ICB Actions

No actions are currently foreseen regarding the extension of the SJU.

Funding & Financing

Overview

Funding arrangements

The implementation of the Tran-European Transport Network (TEN-T) was supported through the allocation of TEN-T funds in the period 2007-2013, and through the Connecting Europe Facility (CEF) for the period 2014-2020. SESAR is recognised in CEF as one of three 'horizontal projects'.

Innovation and Networks Executive Agency (INEA)

At the start of 2014, INEA (the successor to TEN-T EA) became responsible for managing parts of the Connecting Europe Facility (CEF) and Horizon 2020 programme. INEA will continue to manage the remaining 2007-2013 projects of the TEN-T Programme.

Connecting Europe Facility

CEF is an integrated financial instrument for investing in EU infrastructures in relation to TEN projects covering transport, energy and telecommunications. The CEF will act as a common focal point for network-related projects and coordinated funding for the next EU financial period (2014-2020). The CEF regulation was [published](#) in the Official Journal on 20th December 2013.

The total budget of the CEF earmarked for transport related projects between 2014 and 2020 is €26.2Bn, of which €11.3Bn will be transferred from the Cohesion Fund. Approximately €3Bn is allocated for SESAR implementation. The first Multi-annual Work Programme ([Commission implementing decision C\(2014\)1921](#) and its [annex](#)) was adopted on 26 March 2014. It allocates up to €300 million for SESAR deployment in the first call expected in September 2014.

Funding from the CEF is limited to a certain percentage of the overall cost of the project. CEF funding rates of eligible costs are as follows:

- 50% for studies and implementation of infrastructure;
- 50% for ground equipment; and
- 20% for airborne equipment.

According to the [ATM Master Plan](#), the target SESAR deployment package (during the period 2014 to 2024) is expected to cost between €16.2Bn and €23.6Bn.

Project Bonds are one of the financial instruments foreseen under CEF. In effect, Project Bonds are issued by the project with EU/EIB funds used to guarantee the debt. The Project Bond concept started in summer 2012 after positive public consultation, and will be fully integrated into the next Multiannual Financial Framework 2014-2020 with the CEF implementation. It is not yet clear whether Project Bonds are particularly suited to financing SESAR deployment.

TEN-T awards 2013

The [TEN-T Info Day](#) for the [2013 Calls for Proposals](#) took place on **13th December 2013** presenting priorities for the call for proposals under the [2013 Multi-annual Work Programme as amended](#). The aim of this call for proposals is to support the timely implementation of SES, and in particular support the deployment of SESAR. The first SESAR call in CEF is expected in September 2014.

ICB Actions

The ISG will continue to consider funding and financing issues. INEA have been invited to present the scope of the CEF call at ICB/53.

Performance Scheme

Overview

The performance scheme ([\(EU\) No 390/2013](#)) and charging scheme ([\(EU\) No 391/2013](#)) Regulations for RP2 (2015 – 2019) were adopted in May 2013. RP2 will cover the calendar years 2015 to 2019 inclusive.

An ad-hoc meeting of the SSC on 4th February 2014 adopted EU-wide targets for RP2.

SSC/54 has approved the Commission's request to extend the PRB by 18 months.

Member States submitted performance plans including national/FAB targets for RP2 at the end of June 2014. They are currently being assessed by the PRB.

The Commission, using the advice of the PRB and SSC (in November 2014), will approve the performance plans and targets or make a recommendation for revision.

Further, an Ad-hoc SSC is expected to discuss the PRB post 2016.

Timeline

- 4 February 2014** – Positive vote on EU wide-performance targets at ad-hoc SSC
- 14 March 2014** – [Commission Implementing Decision 2014/132/EU](#) setting the EU wide-performance targets adopted
- End of June 2014** - Deadline for submission of Performance Plans by Member States
- 1/2 July 2014** - The SSC approved the [proposal](#) from the Commission to extend the PRB by 18 months until the end of 2016
- 3 September 2014** - PRB Workshop (tbc - www.eusinglesky.eu)
- October 2014** - PRB Advice on FAB Performance Plans submitted to Commission
- November 2014** - SSC to adopt Commission recommendations on FAB Performance Plans
- Autumn 2014** - Ad-hoc SSC expected to discuss the future of the PRB post 2016

ICB Actions

The ICB will consider advice on the future of the SES Performance Scheme at a later date.

Network Manager

Overview

The Network Function (NF) implementing Regulation (IR) ([Commission Regulation \(EU\) No677/2011](#)) was adopted on 7th July 2011, laying down detailed rules for the implementation of ATM network functions. It invites the Commission to "review [of] the effectiveness of the execution of the network functions by 31 December 2013".

Some amendments to the NF IR have already taken place in the context of the update of the Performance Regulation (Commission Regulation No. 390/2013), while the Commission also made some suggestions for changes that would impact the NF IR in the context of its recent proposal on SES2+.

Member States on the SSC have chosen to adopt the NF IR using a two-step approach. Firstly, undertaking a quick update of the NF IR to address urgent issues; then secondly, a more in-depth revision to take account of the SES2+ proposal.

Timeline

- 22/23 October 2013** - At SSC/51 the Commission presented a [preliminary assessment of the NF IR](#), including identification of the scope of possible amendments to the legal basis as well as the process for that revision. Member States were invited to share their views on the approach to be followed.
- 28 November 2013** - At NMB/8 the Commission sought initial views on the review of the NF IR. Discussions pointed towards the creation of a small task force to prepare a Board position on the matter by early 2014.
- 17/18 December 2013** - At SSC/52 the Commission presented a [review of the effectiveness of implementation of the Network Function implementing Regulation](#). The Commission welcomed oral comments during SSC/52 and/or subsequent written comment.
- 2/3 April 2014** - At SSC/53 the Commission [presented a revision of NF IR](#). Members of the SSC are asked to take note of the recommendations.
- 13 May 2014** - At Ad-Hoc SSC, there was agreement on draft compromise text with a limited set of improvements and a written procedure was launched, which was eventually withdrawn in June.
- 1st/2nd July 2014** - SSC/54 voted positively on [the legislation](#), subject to some amendments.

ICB Actions

The ICB approved its [position on the revision of the NF IR](#) at ICB/51, recommending the Commission to undertake a short-term revision of the NF IR with regard to the budgetary planning process and timescales. The ICB also recommended that the Commission provide a detailed assessment of the NF IR, including a full stakeholder consultation, before launching the revision process in-line with the evolving regulatory environment. The ICB will continue to monitor any updates on the Network Manager.

Centralised Services

Overview

EUROCONTROL has defined a [Centralised Service](#) (CS) as “an ANS service or ATM function exercised at pan-European and central network level for harmonisation and cost-efficiency purposes”. V2.0 of EUROCONTROL’s [proposal](#) was published on 25th March 2013. The table on the next page provides an overview of the 18 Centralised Services.

The original timeline was delayed due to EUROCONTROL’s application for TEN-T funds to implement Centralised Services not being retained. Pending approval by the EUROCONTROL Provisional Council, a staggered progressive parallel approach to the CSs with intermediate decision points is now proposed.

CSs 1, 4, 5, 6, 7 and 8 will be grouped together, and calls for the demonstrators will progress immediately. CSs 2, 3 and 9, where there is a direct link with ANSP infrastructure, will initially proceed with feasibility studies. There will be several key decision points where the CBA and financing will be updated, according to the nature of each CS. For this phase, governance will be the EUROCONTROL decision bodies.

Timeline

- 4 February 2014** - CS Programme kicked-off in Agency
- 28 February 2014** - [Member states approve centralised services](#)
- 4 March 2014** - A dedicated [workshop on Centralised Services](#) took place at the World ATM Conference
- 21 March 2014** - [‘Call for interests’ open for the following 14 Centralised Services](#): CS1, 4, 5, 6-1 to 6-7 inclusive, 7-1 to 7-3 inclusive, and 8. Closing date for the ‘Call for interests’ was 28th May 2014.
- 24 April 2014** - ANSP workshop on Centralised Services, where Frank Brenner made the following [speech](#).
- 5 May 2014** - Call for tenders closed for CS9-1 and 9-2.
- 16 May 2014** - Workshop on the clarification of centralised services where Frank Brenner made the following [speech](#).
- 1-3 July 2014** - [Training](#) on Centralised Services
- July 2014** - Publish restricted call for tenders for CS1, 4, 5, parts of 6, 7-1 to 7-3 inclusive, and 8.
- 2014 to 2015** - Publish 4 remaining open call for interests/Restricted Call for tenders (conditional to Provisional Council agreement on outcome feasibility Studies)

ICB actions

The ICB finalised the [Centralised Services \(CS\) Position Paper](#) by correspondence and delivered to the Commission on 15th January 2014.

The ICB will continue to monitor the situation on Centralised services.

Centralised Services	Status
CS1: Flight Plan and Airport Slot Consistency Service (FAS) <i>Checks consistency of flight plans against airport slots</i>	Straight to Demonstrator
CS2: 4D Trajectory Flight Profile Calculation for planning purposes service (4DPP) <i>Central reference 4D trajectory profile in the pre-planning phase</i>	Feasibility study required (external)
CS3: European Tracker Service (ETKR) <i>Provides an ECAC-wide surveillance picture</i>	Feasibility study required (internal)
CS4: Advanced Flexible Use of Airspace Support Service (AFUAS) <i>Civil-military airspace management decision making processes</i>	Straight to Demonstrator
CS5: European ATM Information Management Services (EAIMS) <i>A reference source of consolidated European ATM context information</i>	Straight to Demonstrator
CS6: Common Network Resources (CNR) <i>Managing scarce resources on a unified basis</i>	
CS6-1: Transponder Code Function (CNR/TCF) <i>Improving the management of the Transponder Code Function</i>	
CS6-2: Mode S Interrogator Code Allocation (CNR/MICA) <i>Coordinating the allocation of interrogator codes to Mode S interrogation</i>	
CS6-3: Radio Frequency Function (CNR/RFF) <i>The SAFIRE and Monitoring services providing all CNS systems with frequencies that are not interfered</i>	Straight to Demonstrator
CS6-4: European Messaging Directory Service (CNR/EMDS) <i>Providing coherent routing tables for the ATM messaging</i>	
CS6-5: European IPS Repository (CNR/EIPR) <i>Providing a unique repository of all network addresses</i>	
CS6-6: Security Certificate Service (CNR/SCS) <i>Delivering security keys to get access to the EUR ATM network</i>	
CS6-7: Operation and Coordination of Network Security (CNR/OCNS) <i>Monitoring and managing security of the ATM network</i>	
CS7: Network Infrastructure Performance monitoring and analysis Service (NIPS) <i>Safe function and anomaly resolution of CNS infrastructure</i>	
CS7-1: Performance monitoring of Data-link communication, Surveillance avionics, TCAS and RVSM (NIPS/CNS-PERF) <i>Insuring that CNS aircraft and ground systems are interoperable and that the right level of performance is achieved</i>	Straight to Demonstrator
CS7-2: Performance of 1030/1090 RF bands (NIPS/SUR-RF) <i>Provide a consistent and updated view of the 1030/1090 RF band usage</i>	
CS7-3: Monitoring and prediction of Satellite Navigation (NIPS/SAT-NAV) <i>Centrally operating reliable predictions of the GPS RAIM</i>	
CS8: Pan-European Network Service (PENS) <i>Ground communication needs for future data exchange</i>	Straight to Demonstrator
CS9: Data Communication Service (DCS) <i>Air-ground communication service to support consolidation of DLS</i>	
CS9-1: Telecommunication Infrastructure (DCS/TELE-INFRA) <i>Transporting A/G ATS datalink information between mobile and ground users</i>	Feasibility study required (external)
CS9-2: CPDLC, CM, ADS-C SERVER (DCS/CCA-SERVER) <i>Reducing the number of servers in the European States and the associated operating costs</i>	

Interoperability

Overview

Interoperability issues relating to the development and deployment of technologies, including standardisation and technical regulation activities undertaken in relation to SES and SESAR, are dealt with by the Technical Sub-group (formerly known as the Interoperability Sub-group).

Implementing Rules

Ongoing rule development

Proposed implementing rule	Status
Standardised Rules of the Air (SERA) Part C CIR	EASA NPA 2014-05 comments period closed on 19 May 2014. See EASA rulemaking section for further details.
Aeronautical Data Quality (ADQ) 2	Transferred to EASA.
Performance Based Navigation Implementing Rule	EUROCONTROL and EASA are checking for consistency with the PCP CIR. It will be presented in EASA format.

Issues with existing rules

The Commission is currently working to resolve a number of issues with existing rules, as outlined in the table below.

Implementing rule	Status
Data Link Service CIR	See below - Opinion is expected from SSC/55 on 12/13 November 2014.
Aeronautical Data Quality (ADQ) 1	The Commission have proposed a minor revision of ADQ CIR to SSC/53 with updated ICAO and ISO references. The Commission is also planning to launch EU Pilots due to Member States stating they are unable to comply. Outputs of the 23 rd June workshop are available here and the outputs of the ADQ Regulators Working Group are available here .
Surveillance Performance and Interoperability (SPI) IR	A workshop was held on 7th March 2014 at which various concerns with the IR were tabled. The Commission have proposed a revision of SPI IR to SSC/53 to delay airborne equipage dates. A more detailed review is intended at a later date. ICB position produced and SSC/54 voted positively on the legislation .

Data Link Services CIR Timeline

- 2/3 April 2014** - The Commission provided an [update to SSC/53 on DLS IR](#) to consider the way forward.
- 13 June 2014** - TSG/35 produced the following [note](#) in response to the EASA [report on the technical issues of the DLS CIR](#).
- 17 June 2014** - A Commission workshop was held with the following [agenda](#) and [outputs](#).
- 22 July 2014** - TSG ad-hoc produced an [Information Paper on Revision of DLS IR](#).
- 30 September 2014** - Commission workshop planned to discuss the possibility of postponing implementation dates.
- 1 October 2014** - TSG/36 to produce a position on the revision of the DLS IR
- 12/13 November 2014** - SSC/55 to provide opinion on the Revision of the DLS regulation.

Community Specifications

In May 2013, the ESOs accepted a new mandate ([M/524](#)) to begin work on new Community Specifications. Work on this mandate is currently suspended whilst the impact of SES2+ is assessed. This suspension is delaying short term actions such as updating the DLS CS.

ICB Actions

The TSG will develop a position on the revision of the DLS IR and ADQ IR following the June workshops. The ICB agreed its [position](#) on a minor update to references in the ADQ IR which received positive opinion at SSC/54. The TSG will comment on further amendments following the ADQ workshop. To date TSG ad-hoc has produced the following [Information Paper on Revision of DLS IR](#).

EASA Rulemaking

Overview

This section summarises the status of the EASA Rulemaking activities on ATM.

The [EASA 4-year Rulemaking Programme 2014-2017](#) provides the expected rulemaking over a period of 4 years and was officially adopted by [ED Decision 2013/029/R](#) on 20th December 2013, which supersedes earlier published rulemaking programmes.

The Programme also contains rulemaking projects deemed necessary to support the implementation of the regulatory needs stemming from SESAR deployment. However, the envisaged contents of PCP (Pilot Common Projects) would require some re-assessment of the Programme.

The on-going rulemaking activities in the ATM/ANS domain have progressed in line with the priorities set by EASA Management Board and the European Commission. During April 2014 – July 2014 the following ATM/ANS rulemaking deliverables were issued by the Agency:

- NPA 2014-07 on 'meteorological services' was published on 28th March 2014. Comment period closed on the 30th June 2014.
- NPA 2014-08 on 'development of AMC/GM for safety key performance indicators (ATM performance IR) for RP2' was published on 31st March 2014. Comment period closed on the 26th May 2014.
- NPA 2014-09 on 'transposition of Amendment 43 to Annex 2 to the Chicago Convention on remotely piloted aircraft systems (RPAS) into common rules of the air' was published on 3rd April 2014. Comment period closed on the 3rd July 2014.
- CRD 2013-08 on 'requirements for service providers and the oversight thereof' was published on 6th June 2014. EASA are now developing an opinion for the amendment of Commission Implementing Regulations 1034/2011 and 1035/2011 with an initial discussion at SSC/55 in November 2014.
- NPA 2014-13 on 'assessment of changes to functional systems by service providers in ATM/ANS and the oversight of these changes by competent authorities' was published on 24th June 2014. The expiry date for comments is 24th September 2014.

In order to identify the most appropriate way to update and improve Regulation (EC) No 216/2008 (EASA Basic Regulation), an EASA Consultation ([A-NPA 2014-12](#)) and a [Commission Consultation](#) are open until the 15th September 2014.

More information can be found in [EASA's rulemaking programme](#).

ICB Actions

The ICB TSG Sub-group has asked to receive a regular report on the [status of SES activities undertaken by EASA](#). The ICB Chairman has written to the EASA DG requesting inputs to ICB/54.

Comitology Committees

Single Sky Committee (SSC)

To access SSC dossiers (agendas and summary minutes) follow [this link](#) and these instructions:

1. In the top box select 'Search for Dossiers'
2. In the bottom box ('Committee/Basic legal act') select 'Committee'
3. Under service responsible, select 'Mobility and Transport' and press 'Search'
4. Scroll down and select the Single Sky Committee
5. (Optional - specify any further details in the 'Dossier' box)
6. Click the 'Search' button

SSC working papers are made available to ICB members via the ICB Portal.

Commission Expert Groups

Community Observatory on Airport Capacity

Documents from the group are available in the additional information tab.

Objective: to advise the Commission on the implementation of the action plan for airport capacity, efficiency and safety in Europe and on any matter relating to airport policy, notably airport capacity.

Expert Group on Social Dialogue

Agendas and summary minutes are available in the additional information tab.

Objective: to advise the Commission with respect to the implementation and development of the single European sky regarding all measures having significant social implications.

SESAR Interim Deployment Steering (IDSG)

Documents from the group are available in the additional information tab.

Objective: to steer, coordinate and monitor short term implementation activities on the basis of an Interim Deployment Programme. The steering is primarily achieved through recommendations to the Commission and the oversight of their implementation. The Commission may consult the IDSG on any matter relating to SESAR deployment.

Public Consultations

This section provides links to public consultations of interest to the ICB.

1. European Commission

[A Policy initiative on aviation safety and a possible revision of Regulation \(EC\) No 216/2008 on common rules in the field of civil aviation and establishing a European Aviation Safety Agency](#)

Consultation period:
23/05/2014 –
15/09/2014

2. Performance Review Body

No open consultations

3. European Aviation Safety Agency (ATM relevance only)

Notices of Proposed Amendments

[NPA 2014-13 \(24/06/2014\)](#)

Assessment of changes to functional systems by service providers in ATM/ANS and the oversight of these changes by competent authorities

Comments close
24/09/2014

[A-NPA 2014-12 \(23/05/2014\)](#)

European Commission policy initiative on aviation safety and a possible revision of Regulation (EC) No 216/2008

Comments close
15/09/2014

4. EUROCAE

ED-234: Supplement to ED-14G User's Guide

Comments close
1/07/2014

5. ESOs (CSs and ATM related ENs only)

No open consultations

On-going Legislation

Single Sky Committee

1. Recently approved Commission Implementing Regulations and Decisions

2014/132/EU: Commission Implementing Decision setting the Union-wide performance targets for the air traffic management network and alert thresholds for RP2	Received positive vote on 4 th February 2014 Published 11 th March 2014
Commission Implementing Regulation (EU) No 716/2004: on the establishment of the Pilot Common Project supporting the implementation of the European Air Traffic Management Master Plan	Adopted through written procedure on 28 th May 2014 Published 27 th June 2014
SPI CIR (Amending CIR 1207/2011)	Received positive opinion at SSC/54
Designation of the PRB Commission Implementing Decision – PRB extended until end of 2015	Received positive opinion at SSC/54
ADQ (Amending CIR 73/2010)	Received positive opinion at SSC/54 with some amendments
Revision of Network Function IR (Amending Regulation 677/2011)	Received positive opinion at SSC/54 with some amendments

2. Proposals awaiting decision

Common charging scheme for ANS (Technical revision of CIR 391/2013)	Discussions expected at SSC/54 Opinion expected at SSC/55
Revision of DLS regulation (Amending Regulation 29/2009 to postpone Implementation dates)	Opinion expected at SSC/55

3. Expected Proposals

SERA Part C: Commission Implementing Regulation (EU) on amending Commission Implementing Regulation (EU) No 923/2012 of 26 September 2012 laying down the common rules of the air and operational provisions regarding services and procedures in air navigation and amending Implementing Regulation (EU) No 1035/2011 and Regulations (EC) No 1265/2007, (EC) No 1794/2006, (EC) No 730/2006, (EC) No 1033/2006 and (EU) No 255/2010	Discussed at SSC/54, further discussions expected at SSC/55 Opinion expected at SSC/56
Common Requirements and Safety Oversight: Commission Implementing Regulation (EU) on amending Regulation (EU) No 1034/2011 of 17 October 2011 on safety oversight in air traffic management and air navigation services and Regulation (EU) No 1035/2011 of 17 October 2011 laying down common requirements for the provision of air navigation services	Discussions expected at SSC/55 Opinion expected at SSC/56

European Parliament Procedures

Proposals awaiting first reading by EP

-

Proposals adopted by EP in first reading and awaiting Council position

Implementation of Single European Sky (Recast)	COM(2013)0410 2013/0186(COD)	Text adopted by Parliament on 12/03/2014
Aerodromes, air traffic management and air navigation services: simplifying and clarifying the legal framework	COM(2013)0409 2013/0187(COD)	Text adopted by Parliament on 12/03/2014
Ground handling services at Union airports and repeal of Council Directive 96/67/EC	COM(2011)0824 2011/0397(COD)	Text adopted by Parliament on 16/04/2013
Common rules for the allocation of slots at EU airports (recast)	COM(2011)0827 2011/0391(COD)	Text adopted by Parliament on 12/12/2012

Recently adopted acts

Extension of SESAR Joint Undertaking	COM(2013)0503 2013/0237(NLE)	Act adopted by Council after consultation of Parliament on 16/06/2014
Proposal for a Regulation on occurrence reporting in civil aviation	COM(2012)0776 2012/0361(COD)	Final act signed on 03/04/2014
Connecting Europe Facility	COM(2011)0665 2011/0302(COD)	Final act signed on 11/12/2013
Development of the Trans-European Transport Network (TEN-T guidelines)	COM(2011)0650 2011/0294(COD)	Final act signed on 11/12/2013
